

Manchester, Ma. – ProMirror is pleased to announce The MAC/Bollettieri Academy has selected ProMirror as its provider for on court video.

The MAC/Bollettieri Academy Program is designed personally by Nick Bollettieri and is currently training many of the best players in New England.

“Video is a powerful tool for coaching tennis. The integration of video into a busy program is a challenge. Prior to ProMirror we were limited in what we could do. Now we use video everyday at the Academy. The benefits of on court video with ProMirror are many, I highly recommend all programs consider ProMirror for their video needs.”
